Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative gave a thorough overview of applicant's claimed invention as it relates to Fig. 2 in applicant's specification. Applicant's representative then discussed proposed amendments applicant believes will help distinguish from the teachings of Romero. Examiner agreed the proposed amendments appear to distinguish from the cited teachings of Romero, however, indicated the proposed amendments come after a final rejection to the claims, and would thus require further search and/or consideration by the examiner.
